

Sea Logistics

Less than container load (LCL)

Full service for your part loads

Less than container load (LCL)

Kuehne+Nagel's LCL shipping solution is an essential part of a smart supply chain, giving you the highest flexibility—no matter the cargo volume.

Efficiency and flexibility

If you plan shipments that do not fill an entire container, LCL is the more economical option. Regardless of your company's size, LCL lets you ship affordably and make your business more efficient.

From your door to the final destination, we take care of your cargo, optimise logistics processes and offer full visibility. All you have to do is concentrate on driving success.

Fast transit time

LCL shipments are always routed with the fastest available option. This may be through direct transport with the shortest transit time or, when not possible, a route with only one stop.

Reliability

With weekly departures in an extensive routing network, LCL services are a flexible and reliable option. We offer 450+ direct sailing services connecting all global key markets.

The ultimate goal is to offer you the best container shipping solutions. Where no direct service is available, our multinational gateway setup of 24,000+ connections lets us bundle flows and increase sailing frequencies.

Your benefits at a glance:

Profit from fast time-to-market

Reduce inventory costs

No extra costs for unused container space

Reliability through LCL space prioritisation

Quote, book and track your shipments via our digital platform myKN

About us

Kuehne+Nagel is the global number one in sea logistics. Over 10,000 sea logistics experts worldwide ensure Kuehne+Nagel customers can access reliable sea transport on all major trading routes and 150,000 port connections. Its focus is on shipping full container loads (FCL) and less-than-container-loads (LCL), perishable and fresh cargo shipments as well as project logistics. We offer a flexible and reliable service and a multitude of connections in an independent network spanning multiple shipping companies. Innovative digital information solutions such as seaexplorer ensure full visibility and customised supply chains, whatever the size of the company.
